

ORAL PEPTIDE
5 AMINO-1MQ

Description:

5-Amino-1MQ is a small molecule that targets and inhibits the enzyme NNMT (nicotinamide N-methyltransferase). By reducing NNMT activity, it helps increase NAD⁺ levels in the body, which are critical for energy production, metabolism, and healthy aging.

Benefit:

Supports fat loss, energy metabolism, and healthy aging through NAD⁺ optimization.

Side Effects:

It is important that you follow the dose and administration instructions as listed. possible side effects may include mild digestive upset, headache, or fatigue. If any of these symptoms become severe, contact us and let the medical team know.

IMPORTANT

1-3 Months ON 1
Month OFF

AM, Before early
afternoon

Daily

1-4 Tablets - Start slow

Store in cool dry
place
