

PEPTIDE

AOD 9604

Description:

AOD 9604 is a peptide fragment derived from human growth hormone (HGH) that helps stimulate fat breakdown and prevent new fat formation. It is primarily used to support weight management and a healthy metabolism.

Benefits:

Burns stubborn fat, boosts metabolism, and supports joint health without affecting blood sugar or using stimulants.

Side Effects:

It is important that you follow the dose and administration instructions as listed. Mild redness or tenderness at the injection site. Rarely, nausea, headache, or fatigue. If any of these symptoms become severe, contact us and let the medical team know.

IMPORTANT

1-3 Months ON, 1 Month OFF

AM on Empty stomach

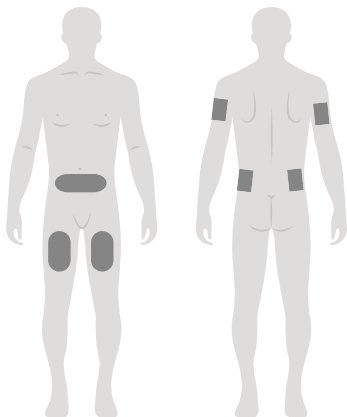

5 days on 2 days off

Inject 10 units, SQ

Refrigerate

Injection Site:

Use an alcohol swab on the top of the vial and at the site of injection before use. Work in a clockwise fashion around the belly button to ensure the prior injection sites have healed, avoiding tender areas. Other subcutaneous area shown to the left.
